This information is provided for purchasers of QuickExtract™ RNA Extraction Kit represented by the following catalog numbers: QER09015 and QER090150.

The Kits contain several reagent tubes.

QuickExtract™ RNA Extraction Solution
DNase Buffer 1
RNase-Free DNase I
Stop Solution
RiboGuard™ RNase Inhibitor

RNase-Free DNase 1 is isolated from bovine pancreas and is believed to be free of TSEs. RiboGuard™ RNase Inhibitor is a protein isolated from non-hazardous *E. coli*. The Inhibitor is supplied as a 50% glycerol/H₂O solution containing salts and a detergent. A material safety data sheet for glycerol is provided. These materials are for research use only.

DNase Buffer 1 contains Tris•HCl. A safety data sheet is available for Tris.

A safety data sheet for the RNA Extraction solution is provided.

The Stop solution contains EDTA. A safety data sheet is provided for EDTA.

EPICENTRE recommends all normal precautions be taken whenever all hazards are not known. We recommend wearing gloves and avoiding direct contact with skin and eyes when handling biochemical and chemical reagents or solutions.
